Australia 2012!

Our Australian Information night was a huge success – this trip is now 84% sold out and it doesn't happen until September 2012! There are two twin/double cabins remaining on this 5 Star Liveaboard trip – and we have even put together an itinerary for the non-diver to have a side-trip of their own.

The Spirit of Freedom, an already 5-Star Liveaboard accommodation has been refitted and is simply glowing! Her ten person crew means a dedication to guests of an almost two to one ratio. And we don't have a cook – we have a Chef - providing our meals, accompanied by the appropriate vintage or beverage, after a day of diving.

You do the math! All inclusive of airfare from Vancouver B.C. to Australia and inter-continental flights as well as hotel accommodations and land excursions – this phenomenal trip is only available through Adventures in Scuba. So, with only four spots remaining – don't miss out on dives like the Ribbon Reefs and Great Barrier Reef, to name a couple - where we will be one of only four liveaboard vessels capable of managing the dive sites. Pristine and uncrowded indeed! Visit our website: www.adventuresinscuba.com for further details.

Upcoming Courses

Take a look at the 'condensed version' of our calendar and give us a call – some classes have minimums, they all have maximums – so don't miss out on your chance to continue your dive adventure in the limited warm weather season we have in Calgary.
